

S.T.E.M. Club

1. Mrs. Bartkey

2. Michele Bartkey: mbartkey@isd200.org

3a. Anyone who wants to join, preferably students interested in S.T.E.M concepts.

3b. Email Mrs.Bartkey whose email will be found in the daily announcements on a slide for the club.

3d. No financial fees unless discussed with the group for certain projects.

3e. As soon as the club is approved. For next year, the club will start with the school year.

3f. The club will be held in Mrs. Bartkey's S.T.E.M. room (the room number will be provided later) and days will be determined based on the availability of the group to meet.

3g. The club will be focused on S.T.E.M. (Science, Technology, Engineering, Mathematics) concepts and will primarily involve projects and experiments. I want to start a club because the STEM class was only one semester, and a handful of people want to continue the fun and learning. However, anyone who is interested can join!
